Application/Control Number: 09/735,548

Art Unit: 1725

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-7, 24-26, 28-32, 8-10, 27, 33-38 drawn to a method of bonding metal

plates, classified in class 228, subclass 173.5.

II. Claims 11-6, 39-43, drawn to an apparatus for bonding a metal plate, classified in

class 29.

III. Claims 17-23, 44-46, drawn to a hot strip mill, classified in class 72.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as process and apparatus for its practice. The inventions

are distinct if it can be shown that either: (1) the process as claimed can be practiced by another

materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice

another and materially different process. (MPEP § 806.05(e)). In this case the apparatus can be

used on non metallic material, such as plastic.

3. Because these inventions are distinct for the reasons given above and the search required

for Group II is not required for Group II and/or Group III, restriction for examination purposes as

indicated is proper.

If applicant elects Group I, applicant must additionally elect the following:

4. This application contains claims directed to the following patentably distinct species of

the claimed invention:

Application/Control Number: 09/735,548

Art Unit: 1725

- Ia. Claims 1-2 drawn to a method bonding in an oblique direction.
- Ib. Claims 3-7, 24-26, and 28-32 drawn to a method of bonding with an operating locus set at the shearing blade edges.
- Ic. Claims 8-10, 27, and 33-38 drawn to a method of bonding with a protrusion on the shearing blade.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the

Application/Control Number: 09/735,548

Art Unit: 1725

examiner finds one of the inventions unpatentable over the prior art, the evidence or admission

may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the

inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the

currently named inventors is no longer an inventor of at least one claim remaining in the

application. Any amendment of inventorship must be accompanied by a request under 37 CFR

1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Len Tran whose telephone number is (703)605-1175. The

examiner can normally be reached on M-F, 8:30 - 5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, Tom Dunn can be reached on 703-308-3318. The fax phone numbers for the

organization where this application or proceeding is assigned are (703)305-3602 for regular

communications and (703)305-3602 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding

should be directed to the receptionist whose telephone number is (703)308-0661.
